CelesDial Set clock

Adjust date and time

is_set_clock = true;

```
116    void setup() {
117      static uint8_t last_second = 0;
118      uint8_t display_hour = 0;
119      bool power_on = true;
120      bool button_state = false;
121      bool is_set_clock = true;  //If you
122      bool led_on_off = false;
```

```
140      //Set date and time here
141      if (is_set_clock) {
142        Ds1302::DateTime dt = {
143          .year=25,
144          .month = 6,
145          .day = 15,
146          .hour = 11,
147          .minute = 16,
148          .second = 0,
149          .dow = 4, //1=Mon, 7=Sun
150        };
151        rtc.setDateTime(&dt);
152      }
```

Upload to Arduino

Run it around 1 mins to check if correct date/time

is_set_clock = false;

```
116    void setup() {
117      static uint8_t last_second = 0;
118      uint8_t display_hour = 0;
119      bool power_on = true;
120      bool button_state = false;
121      bool is_set_clock = false;  //If you
122      bool led_on_off = false;
```
